

Sledding Tips

- **Always put your foot on the brake at the top of hills. It's easier to maintain control than to regain control.**
- **Don't be afraid to put both feet on the brake.**
- **When meeting snowmobiles or other dog teams please stop your team and have one person hold them off to one side.**
- **Crossing bridges should always be done with caution and slowly. Beware of spaces between cross pieces these can trap feet.**
- **Lean the sled to steer it. Just like you would a snowmachine.**
- **Don't let ropes drag, they may get under runners and cause friction.**
- **Watch out for the tines on the snow hook.**

- **When releasing the snow hook , Have one foot on the brake.**
- **Be ready for dogs stopping to poop, the result is a pile-up that can result in a tangle.**
- **The dogs are happiest if you help them by running or walking up hills.**
- **If you are not in good enough shape to run or walk up hills, you can peddle.
(scooter action)**
- **Remember your here to enjoy, Relax and don't forget to bend your knees.**
